DATED OF HEARING	ORDER OF CHIEF JUSTICE/JUDGE
09.09.2025	<p>Appellant: Dr. Aqal Zaman, In person</p> <p>The appellant has filed this appeal against the office objection which is to the effect that second review application is not maintainable. The appellant, in person, sought to argue the matter on merit, however, it was confronted to him that the matter, in hand, is only to the extent of the maintainability of the second review application. Upon this, he submitted that the Court may decide the matter in accordance with law. The examination of record and the office objection shows that the earlier review application was filed by the appellant which was dismissed on merit. In light of the said fact, the office objection is correct that second review application is not maintainable under the law; hence, the instant appeal is dismissed.</p>
